I'm in the office all day today and tomorrow and then thurs and fri. Generally available. At this point, if you get him on the phone, just tell him the good news.

Yes – tried again to reach him this morning, but not successful. Are you available certain times today if I do get ahold of him?

Thanks. Note that there is ZERO reference to what we can do to stop the spread. That still surprises me.

If you are working today – what's the latest on the good news for Chief Nicholas?
